* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories

The Problem

Nutrition labels are confusing.
Consumers struggle to interpret calories, sugar, fat, and additives.
Quick decisions in supermarkets often lead to unhealthy choices. AND there is
No simple way to know if a product is healthy at a glance.

The Solution

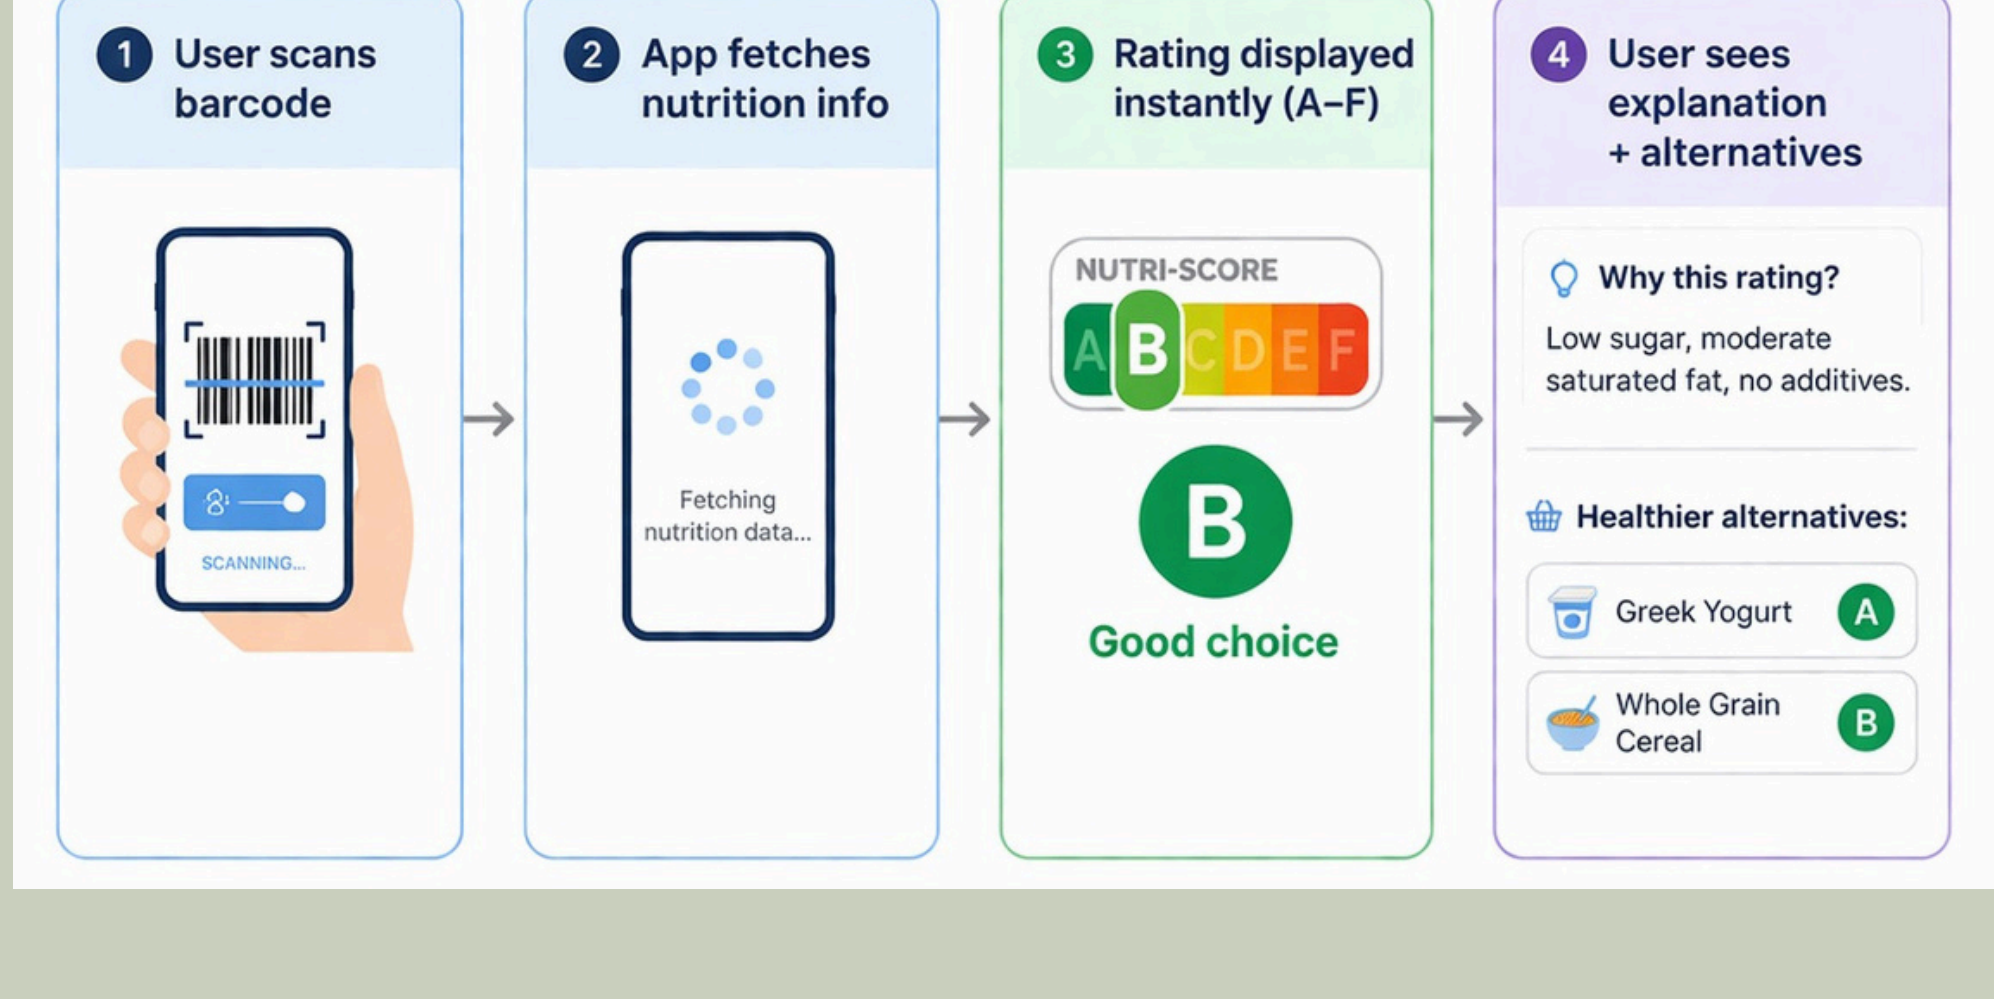

An app that scans barcodes and rates products A-F based on nutrition data.
Scan product barcodes with your phone.
Get a clear rating from A (very healthy) to F (unhealthy).
Short explanation of why (e.g., "High sugar → Rating D").
Suggest healthier alternatives.

Core Features

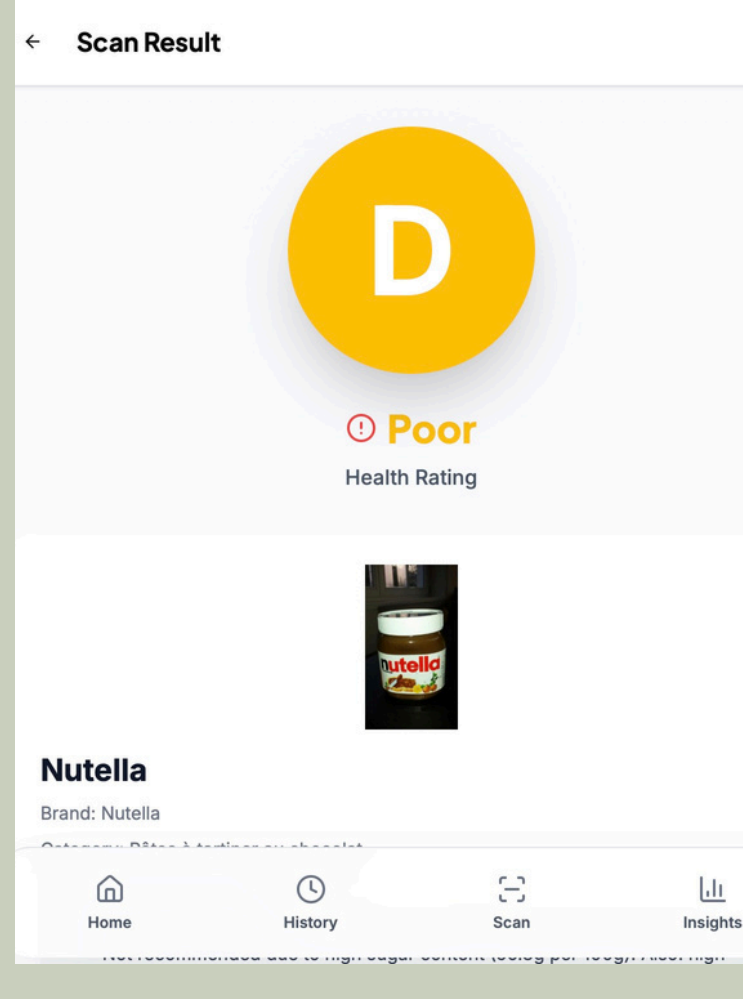

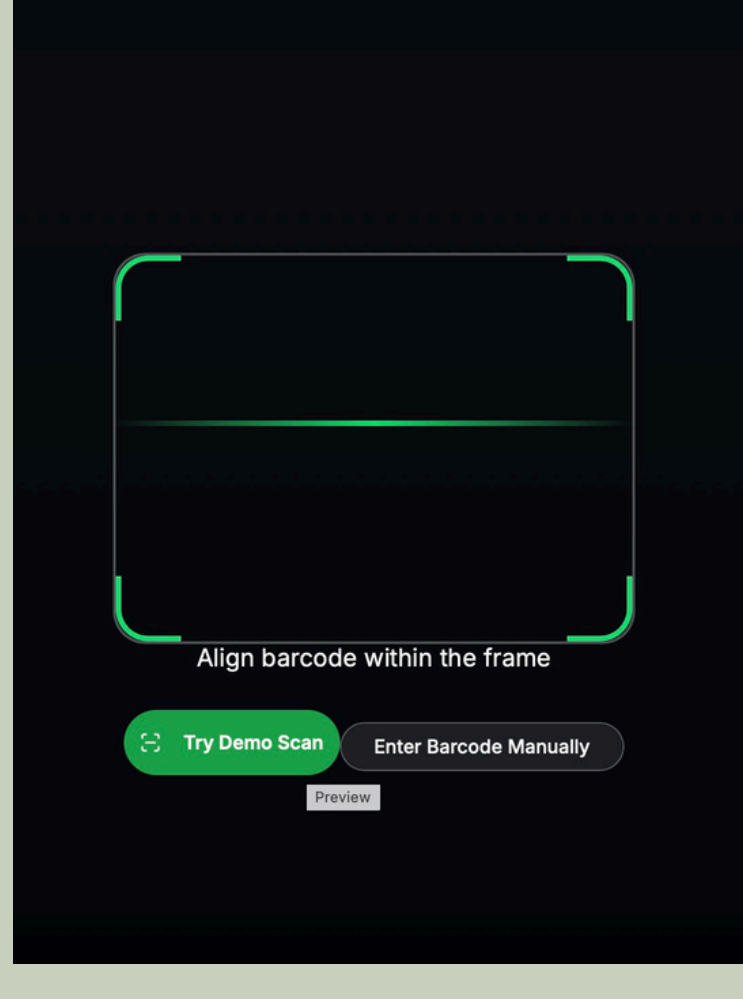

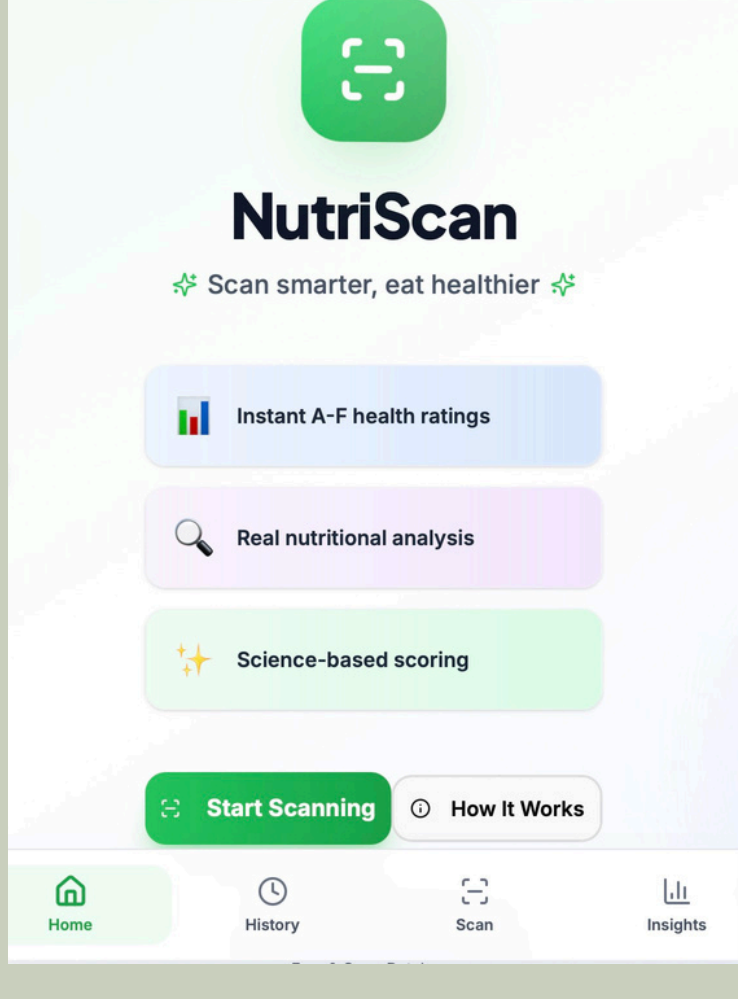

- Barcode scanning with camera.
- Nutrition data pulled from Open Food Facts API.
- A-F rating algorithm based on sugar, fat, sodium, protein.
- History of scanned products.
- Weekly insights (healthy vs unhealthy choices).

How it works?

Prototype (Figma)

How Ratings are calculated?

SCORING FRAMEWORK

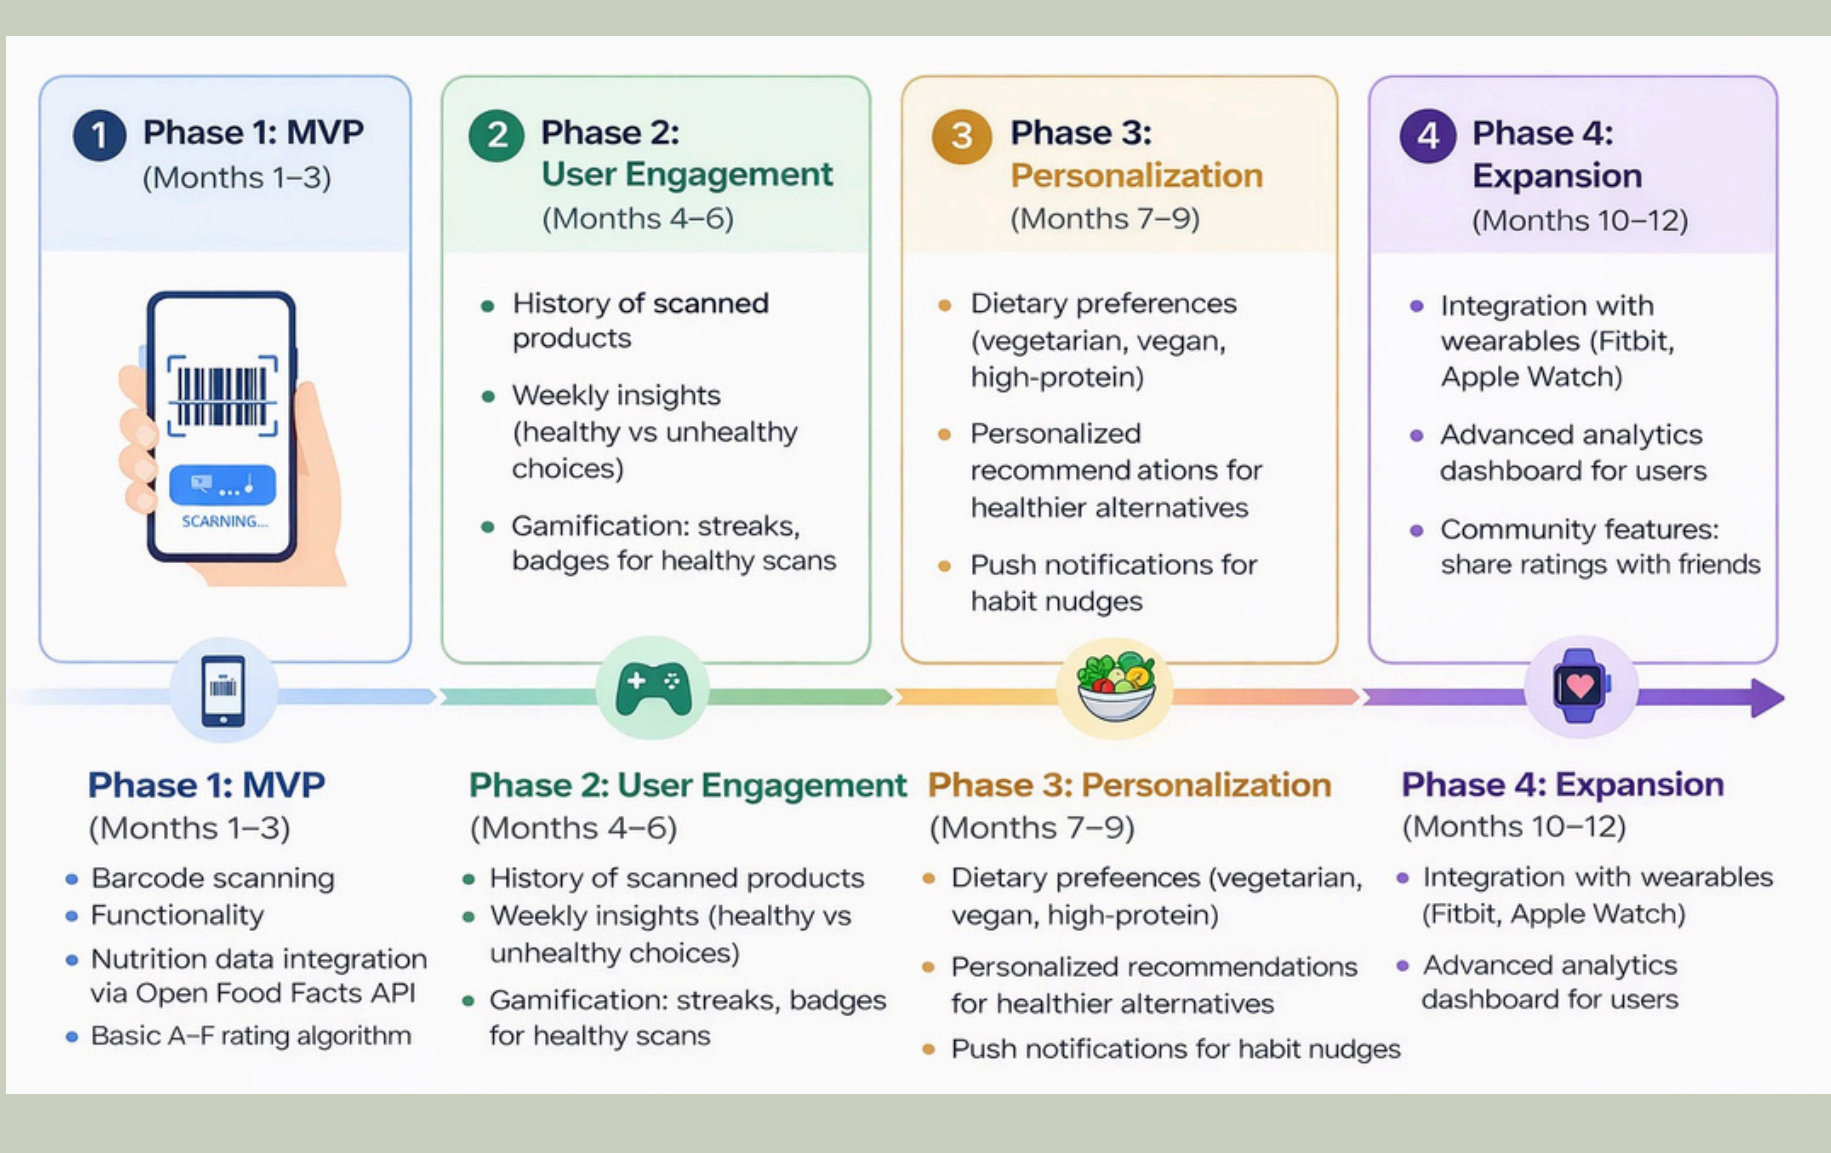

GRADE	Criteria (per 100g)	Example
A	Sugar < 5g, Fat < 3g, Sodium < 120mg	Plain oats
B	Sugar 5–10g, Fat 3–5g, Sodium 120–200mg	Whole wheat bread
C	Sugar 10–15g, Fat 5–10g	Flavored yogurt
D	Sugar 15–20g, Fat 10–15g, Sodium 300–400mg	Sweetened Cereal
E	Sugar 20–25g, Fat 15–20g, Sodium 400–500mg	Pastries
F	Sugar > 25g, Fat > 20g, Sodium > 500mg	Soda, chips

KPIs (Google Analytics)

1. SCANS PER USER DISTRIBUTION
2. DAILY SCANNING TREND
3. RATING DISTRIBUTION (CORE KPI)
4. HEALTHY VS UNHEALTHY SPLIT
5. RATINGS BY CATEGORY (ADVANCED)
6. 30-DAY RETENTION CURVE
7. SCAN-TO-RETENTION TABLE
8. COHORT ATTENTION FUNNEL
9. TOP SCANNED PRODUCTS

RoadMap

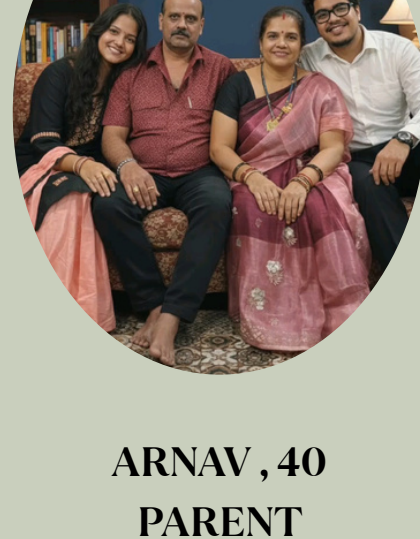

User Stories

TANIESHA, 24
YOUNG PROFESSIONAL

(Busy schedule, eats packaged snacks often, Wants quick health insights without reading labels)
"As a busy professional, I want to scan a product barcode so that I can quickly know if it's healthy."

ARNAV, 40
PARENT

(Shops for family, concerned about kids' nutrition, Needs simple ratings to make healthier choices)
"As a parent, I want to see a simple rating so I can choose better snacks for my kids."

Competitive Analysis

NutriScan uniquely combines scan history, personalized about kids' nutrition, and per-product protein-to-calorie ratios to verify "high-protein" claims, setting it apart from rivals

Feature	NutriScan	Yuka	FoodScan	TruthIn	FactsScan
Barcode Scanning	Yes, camera-based	Yes	Yes, instant	Yes, seamless	Yes
Health Rating/Grade	A-F scale (sugar, fat, sodium, protein per 100g)	Color code (excellent-poor)	Analysis (no explicit grade)	Instant ratings	Health score
Explanations	Short why (e.g., high sugar)	Detailed info	Ingredient decode	Nutrition facts	Sugar/salt/fat alerts
Alternatives	Healthier suggestions	Yes	N/A	Better-rated options	Smarter swaps
History/Insights	History of scanned products; % healthy vs unhealthy; weekly insights	Scan history	Track diet, save meals	N/A (protein tracker noted)	N/A
Protein/Calorie Ratio	Yes, verifies if product is truly high-protein as claimed	Notes protein but no ratio	N/A	Protein tracker, no ratio	N/A
Data Source	Open Food Facts API	Proprietary/Open Food Facts	Millions of products	N/A	N/A
